Setting a Picket line Schedule

As a Picket Captain it is your responsibility to ensure that the picket line is covered.

1. Talk to your members and build a weekly schedule that covers your picket line from morning to night.
2. Talk to your members and see if any have vacations planned or days they need to not be on the picket line. Work with your members to cover off times.
3. If you have issues with your schedule talk to your staff representative to see if they can help or other Picket Captains near by and see if you can work together to help each other out.
